QUICK GUIDE FOR RAPID RESPONSE NETWORKS

What is a Rapid Response Network?

A system where community members **alert each other immediately** when ICE is spotted, allowing people to:

- Avoid the area if they area at risk
- Document what's happening
- Deploy legal observers
- Support affected families
- Apply community pressure

Dos and Don'ts for Rapid Response

Do:

- Record time and exact location of the ICE sighting, and take photographs if possible. Report information quickly
- If information is unverified, say so
- Organize shifts of volunteers who can and will respond within minutes at any time of the day
- Respect the privacy of your fellow volunteers

Don't:

- Spread false information
- Think "someone else will do it"

BE PREPARED

practice every scenario

Get Started:

- Set up community meetings to organize rapid response and mutual aid networks
- Establish an emergency contact tree
- Establish an ICE watch hotline using Google Voice
- Hold Know Your Rights workshops
- Distribute red cards, know your warrant cards, and Know Your Rights information
- Engage local governments, faith communities, and small businesses
- Engage with a local legal aid association

Your Rights

- ICE or federal agents cannot enter your home without a judicial warrant signed by a judge.
- You have the right to remain silent and to request a lawyer.
- You do not have to consent to a search.
- Local governments cannot be forced to help federal immigration enforcement

What to do if:

- ICE is at your door: Do not open. Ask to see the warrant through the window or door. Check for a judge's signature.
- National Guard is on your block: Document what you see. Remain calm and avoid confrontation.
- Federal agents show up at work: Direct them to management. Employers should request a judicial warrant before allowing access.

So you Wanna Watch ICE: A Brief Guide

Your Rights

- First Amendment protections: You have the right to observe, photograph, and record ICE agents in public spaces
- Public spaces: Streets, sidewalks, parks, and other areas visible from public property are fair game
- No special press credentials needed: You don't need to be employed by a media organization—citizen journalists have the same First Amendment protections

Important Boundaries

- Don't physically obstruct agents or operations—this can lead to arrest
- Private property rules still apply (homes, businesses, private driveways)
- "Officer safety" claims may be used to push you back, but this should be a reasonable distance, not used to prevent all documentation
- Agents may claim it's interfering, but merely recording from a safe distance is not interference

Before Engaging:

Take care of yourself so you can care for others.

- Take 3 box breaths.:

Hold yourself in a comfortable position. Feel the ground beneath your feet. Take a deep breath in, hold it for four seconds. Exhale. Hold for four seconds. Repeat x 2.

- Put on a mask.

During Engagement:

- Ask suspicious officers if they are federal agents.
- Blow the whistle! 1-2-3-4 for suspicious activity. BEEP! for active detention.
- Record all activity horizontally (see box).
- Ask the detainee for a loved one's phone number. Shout if necessary.
- Do not interfere with an arrest or agitate the officers. This includes obstructing the officers or their operations.

Safety Tips

- Keep your distance (typically 15-20 feet minimum)
- State clearly: "I'm observing and recording" if questioned
- Know that agents may try to intimidate or demand you stop—you're generally not required to comply if you're in public space
- Have a backup plan for your footage (auto-upload to cloud, send to trusted contact)
- Travel with others when possible

RECORD THE

s.a.l.u.t.e.

SIZE — UNIFORMS
ACTIVITY — HOUR & DATE
LOCATION — EQUIPMENT

If Confronted:

- Stay calm and don't argue. Use your Emergency Contact Card and your Red Card. (find these at No2Ice.com)
- Don't consent to searches of your phone or equipment
- If detained, clearly state you're invoking your right to remain silent and want a lawyer
- Remember: They may delete footage if they seize your device, so remote backup is crucial

After the Engagement

Do not post videos or pictures of detainees' faces on social media.

Send all information collected to the ICRR hotline at 855-453-7693. If you did not get footage, ask around.

Take care of yourself. Take a walk.

Rapid Response Guide for Bystanders

Some Community Don'ts

False reports create panic.

- Don't post an "ICE ALERT" based on assumptions or unverified information.
- Don't forward messages without confirming the source.
- Don't make mass posts to social media; use established phone trees / text chains.
- Avoid sharing old photos of current incidents
- Don't rely on appearance alone; look for DHS, ICE, or CBP markings.
- Don't amplify panic with dramatic language
- Don't speculate about operations

Your Rights

- ICE or federal agents cannot enter your home without a judicial warrant signed by a judge.
- You have the right to remain silent and to request a lawyer.
- You do not have to consent to a search.
- Local governments cannot be forced to help federal immigration enforcement.

A Quick Guide to Preparing for ICE

for individuals & households

Carry these items

- **Red Card.** Also download a copy to your phone at No2ICE.com
- **Emergency Contact Card** so that a bystander can contact your family if you are detained
- Your **US ID** card
- **Whistle**

Essential Tasks

- Fill out an emergency preparation checklist to plan ahead for children, elderly family members, and pets
- Gather all important documents and give a copy to a trusted friend or relative
- **Find an immigration attorney** and keep their phone number on you at all times.

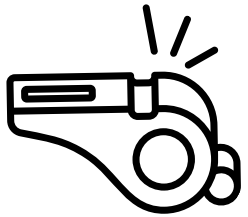

What to do if

- **ICE is at your door:** Do not open. Ask to see the warrant through the window or door. Check for a judge's signature.
- **National Guard is on your block:** Remain calm and stay indoors. Do not open your door.
- **Federal agents show up at work:** Do not run. Do not give them false information.
- **ICE pulls you over while driving:** Remain calm. Ask them who they are: ICE, police, or other agents? Show them your Red Card through the window. Do not open the car window or doors. **Sound the whistle signal using your car horn**: 1-2-3-4 short blasts. Pause. Repeat.
- **You're afraid** to go to work or school or to leave your home for necessary tasks: Contact your local immigrant services organizations to find people to assist you.
- **ICE detains a loved one:**
  - Get their full name & A-number
  - Use ICE detainee locator: locator.ice.gov
  - Contact immigration attorney immediately
  - Call local rapid response network
  - Tell them to NOT sign anything without their immigration attorney's approval
  - Hang a "kidnapped here" sign at their detention location for awareness.

JOIN THE WHISTLE BRIGADE

KEEP YOUR COMMUNITY SAFE *know the code*

✓ Know the codes: **1-2-3-4 (suspected ICE activity) or BEEEEEEP (active detention).**

Learn it, carry it, use it.

✓ When you hear the whistle, don't freeze. Step outside if it's safe, document, record at arm's length, blow your whistle, and make sure no one is alone.

✓ Call your local number (_____) to alert rapid response teams

✓ Post a "Kidnapped Here" notice where someone is detained to remember and forewarn.
